Shared Care Programme

Welcome

Dear Partner,

We are delighted to welcome you to the world of OCL Vision and the OCL Shared Care Partner Programme.

Our Shared Care Partner Programme was born to build a community where ophthalmology meets optometry, working together in a cohesive and collaborative manner to support you and your patients.

Our Programme allows our team of ophthalmologists to work closely with you and your team in the treatment and management of all ocular conditions. Building a personal and engaging relationship with you and your practice is a key component of our Shared Care Partner Programme. By utilising such a model, we can treat your patients in a fast and efficient manner, thereby not delaying their treatment needs and requirements whilst maintaining a personal service.

The Shared Care Partner Programme welcomes all referrals, and you can rest assured patients will be returned to you upon completion of their treatment. Welcome again to the OCL Vision Shared Care Partner Programme - we very much look forward to working with you and caring for your patients and their needs.

About our Shared Care Programme

The OCL Vision Shared Care Partner Programme is centred around building a professional community where we work inclusively to provide and deliver the very best care and outcomes to your patients. The ethos of our programme focuses on accessibility, approachability, and engaging working partnerships. Our goal is to support our optical partners in the management of ocular diseases, as well as support your patients when the time is right for surgical intervention, for example, cataract surgery or vision correction.

The Shared Care Partner Programme allows for complete accessibility to our team of world-renowned ophthalmic consultants, allowing you to be completely involved in the management of your patients' treatment. Following referral to one of our clinics, we can give you complete peace of mind and reassurance that your patients are seen in a timely fashion and treatment is delivered in the most up-to-date environment.

The Shared Care Partner Programme is not exclusive to referrals. We believe in enhancing our relationships and supporting the modern optical practice, through the delivery of networking and social events, CPD education, and one-to-one sessions with our consultants as part of the Shared Care Partner Program.

“The **shared care scheme** gives me **confidence** that the patients I refer are looked after with the **highest degree of professionalism** and receive the **best care currently available**.”

– J.P.

Meet our *consultants*

The consultant team at OCL Vision have dedicated their careers to specific aspects of eye care that are relevant to your patient needs, we are able to support you in all disciplines within the ophthalmic spectrum.

The team are specialists within their field and recognised as global leaders in ophthalmic care and surgery. You can be reassured that when you work with OCL Vision you are working with highly skilled consultant surgeons.

Our surgeons are at the forefront of technology and have been voted by their peers as the best in their fields

-  In 2018, OCL Vision founding surgeons were voted by their peers as some of the UK's best lens surgeons following a National survey of eye surgeons by the Daily Mail.
-  They are regularly consulted by industry and feature on advisory boards for new technologies. It's a testament to our surgeons that we're trusted the world over to use the very latest technology, and that we're involved in advancing the field of lens and laser eye surgery.
-  We are the highest rated multispecialty eye practice on Trustpilot.
-  Each of our surgeons have been trained in UK centres of excellence including Moorfields NHS Trust and have then gone on to carry out advanced subspeciality training at international centres of excellence in their chosen field of interest.
-  Patients travel from all over the world to see us for our expertise on a regular basis.

75 Years
of combined Eye Surgery experience

30k Plus
Eye Surgeries completed

550 Plus
Lectures nationally and internationally

How it *works*

As a partner within the Shared Care Programme, you can easily refer your patients to the team at OCL Vision. We, in fact, provide two options for you – the referral portal OR a referral form via e-mail.

1.) If you wish to refer to us via the referral portal, please scan the QR code at the bottom of this page, this will allow you to set up an account very easily and then refer patients directly into our program.

Please ensure you mark all patient referrals as 'Shared Care Programme.'

2.) Alternatively, if you prefer, you can simply fill in our referral form and email it to referrals@oclvision.com. We will supply the electronic referral forms to you during your onboarding process into the Shared Care Program.

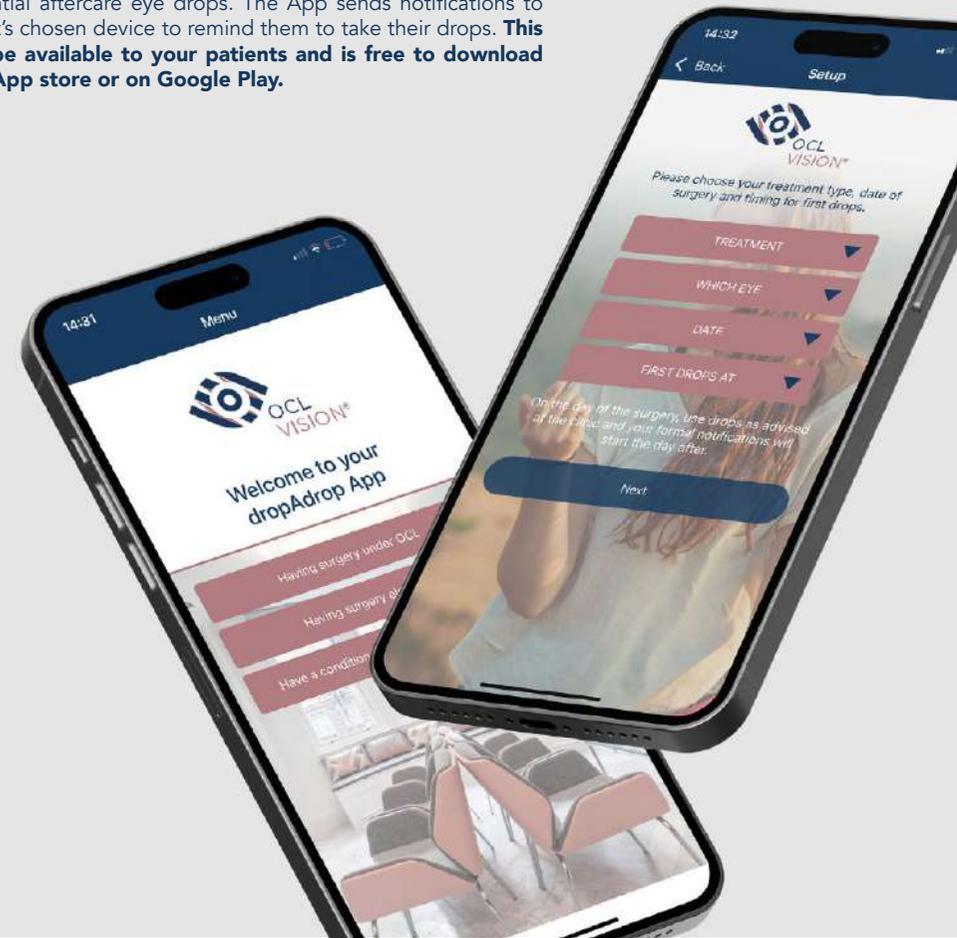

3.) Once we have received everything from you our dedicated team will contact your patient and arrange a consultation as soon as possible. We will also inform you of their consultation, date, time and who they will be seeing therefore keeping you involved and fully informed of your patient's journey.

If they have undergone surgery, they will be seen at OCL Vision by one of our specialist optometrists and then discharged back to you for post-operative care, meaning you always retain your patient within your practice and are involved within their aftercare regime.

Innovative aftercare with our dropAdrop app

At OCL Vision, we pride ourselves on developing innovative ideas to enhance all aspects of eye care with us. Our dropAdrop App has been developed and customised to remind our patients, to take their essential aftercare eye drops. The App sends notifications to the patient's chosen device to remind them to take their drops. **This App will be available to your patients and is free to download from the App store or on Google Play.**

Any questions please contact **Natasha Chrissolor** at natasha@oclvision.com or partners@oclvision.com

Payment options at OCL Vision

Our pricing is transparent, inclusive and upfront with no hidden extras. We offer a range of finance options and can work with you to make our pricing manageable. We are recognised by all insurers.

Self-Pay Patients

For self-pay patients we accept all major debit and credit cards or BACS transfer.

Interest Free Credit

We offer interest free credit with a deposit of 10% of the treatment cost. The balance can then be split over 6, 12 or 24 months.

Insured Patients

We are registered with all major insurance companies including **BUPA, AXA PPP, Vitality, Cigna, Aviva** and **Allianz**, and aim to bill within the cover the insurance companies provide. There are certain technologies we offer that insurance companies do not cover e.g. multifocal lenses - in these cases, there may be an excess to pay.

Explore our *locations*

We offer a range of locations in state-of-the-art clinics and facilities throughout London, Hertfordshire and East Sussex so you don't have to travel too far from home to see our expert surgeons.

Central London | 55 New Cavendish Street, Marlyebone, W1G 9TF

North London & Hertfordshire | Unit 501, Centennial Park, Elstree, Hertfordshire, WD6 3FG

East Sussex | 11 Station Rd, Polegate, BN26 6AT

Scan the below to explore our locations:

“As an optometrist, having access to the Shared Care Partner Programme has become quite **vital for me in order to put my patients conveniently and swiftly in touch with an ophthalmologist.** I can also genuinely say that all patients I have referred to OCL have nothing but **positive feedback of the level of personal care and professionalism** they received from all members of staff. **For me, that speaks volumes.**
